Dear Store Manager,

I lead a busy lifestyle and I struggle to find good tasting plant-based proteins that I can add to my meals when eating out and at home. My friends and family who share my dilemma found this new product line that fulfills our need. It is called **VEGETARIAN TRAVELER®**.

#### Vegetarian Traveler:

- Is Convenient, Easy, Ready-to-eat, and Shelf Stable
- Adds 15-17 grams of plant-based protein per individual servings in portable pouches
- Is a perfect complement to any meal, anywhere
- Has a tear open pouch that makes it easy to drop in cereals, salads, soups, yogurts, stir fry, rice, noodles, add to a smoothie or eat by itself
- Is Vegan Certified and made from real food with simple, healthy ingredients
- Comes in 3 mildly flavored varieties:  
Garbanzo & Soy Medley, Pepita & Soy-Pea Medley and Tri-Soy Medley

Garbanzo & Soy Medley

One more thing: may I take a picture of us with this letter to post on Vegetarian Traveler's Facebook page? The Founders, Christy and Chuck, will send me a free T-shirt for just letting you know about Vegetarian Traveler.

Sincerely,

Your Loyal Customer
